Key Website Functions

QuickHire offers essential features for both employers and job seekers. From posting jobs to seamless applications, our platform covers it all.

Post a Job

Employers can easily publish new job openings.

List All Jobs

View a comprehensive list of available positions.

View Job Details

Access detailed information for each job post.

Filter/Search Jobs

Find relevant jobs quickly with powerful filters.

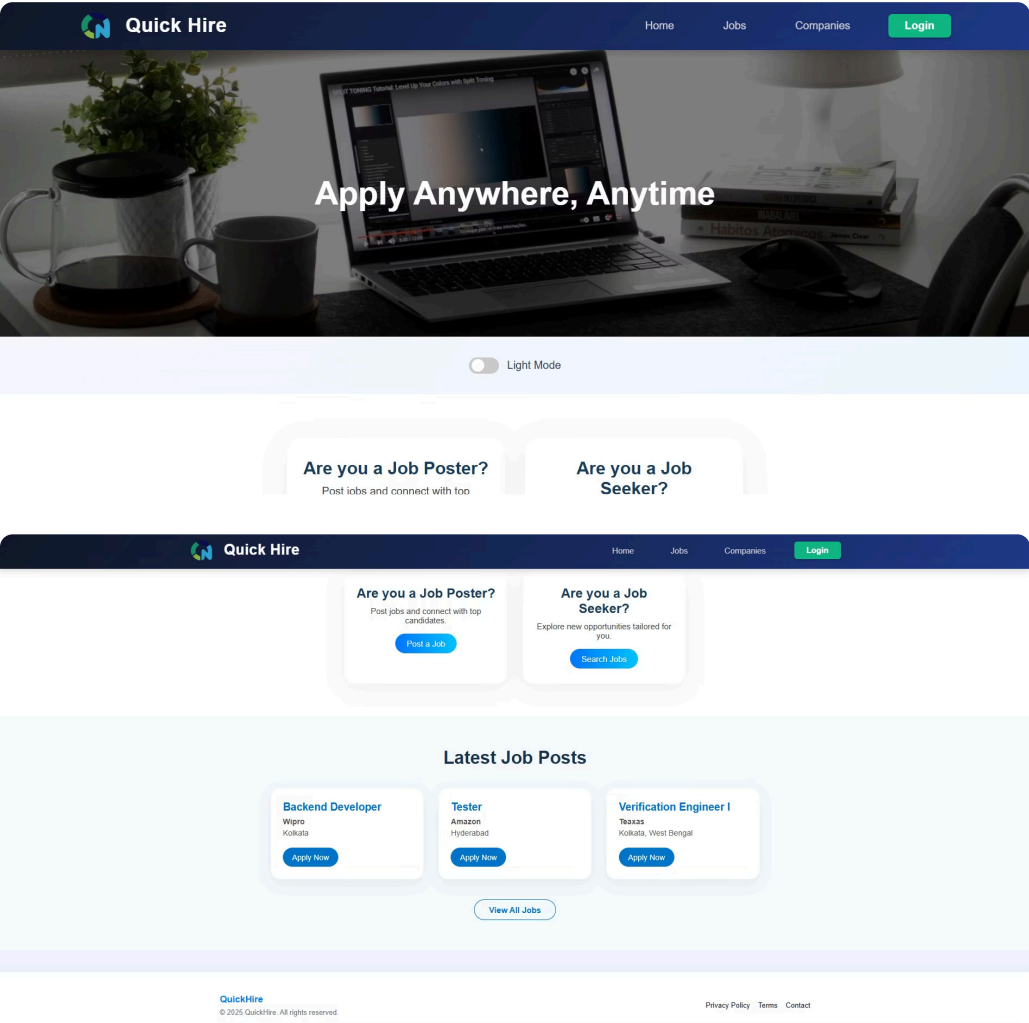

Apply to a Job

Submit applications directly through the platform.

QuickHire User Interface

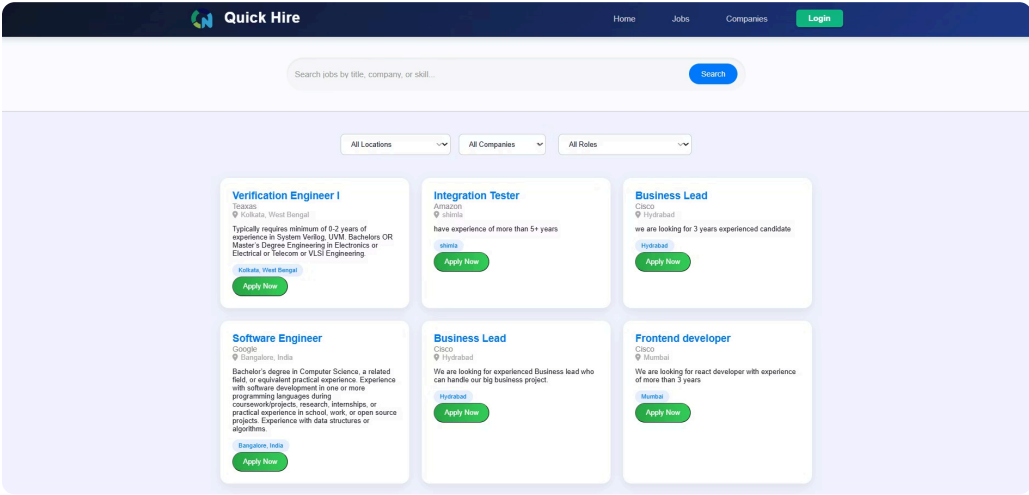

Home Page

The QuickHire homepage offers a clean and intuitive entry point. Users can quickly navigate to key sections.

Jobs Page

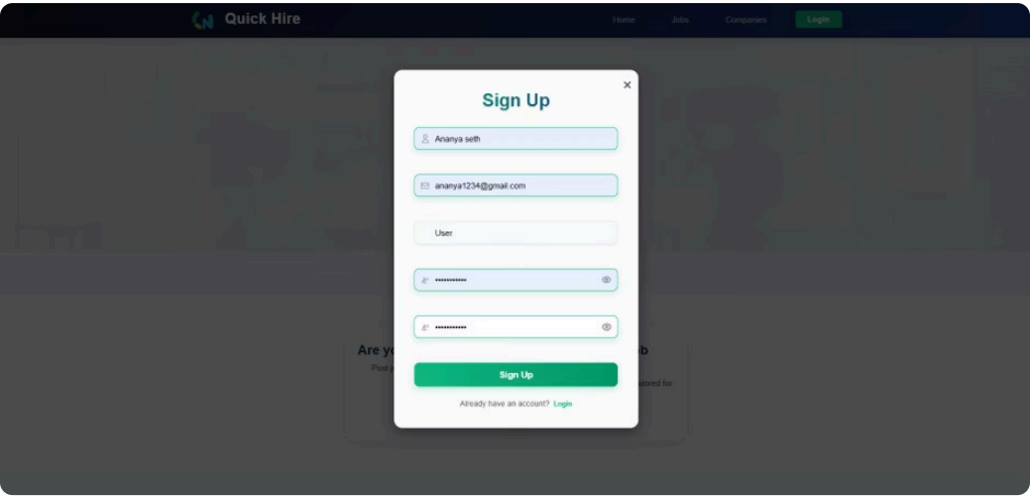

Explore a wide array of job opportunities on the dedicated jobs page. Filtering options are readily available.

Recruiter & Job Seeker Sign-up

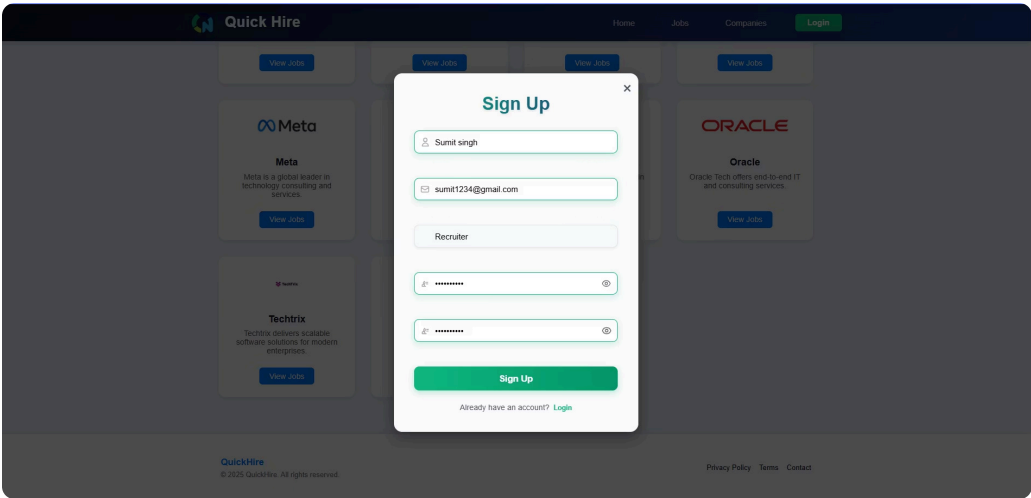

Signing Up as a User

Job seekers can easily create a profile. This unlocks access to various job opportunities.

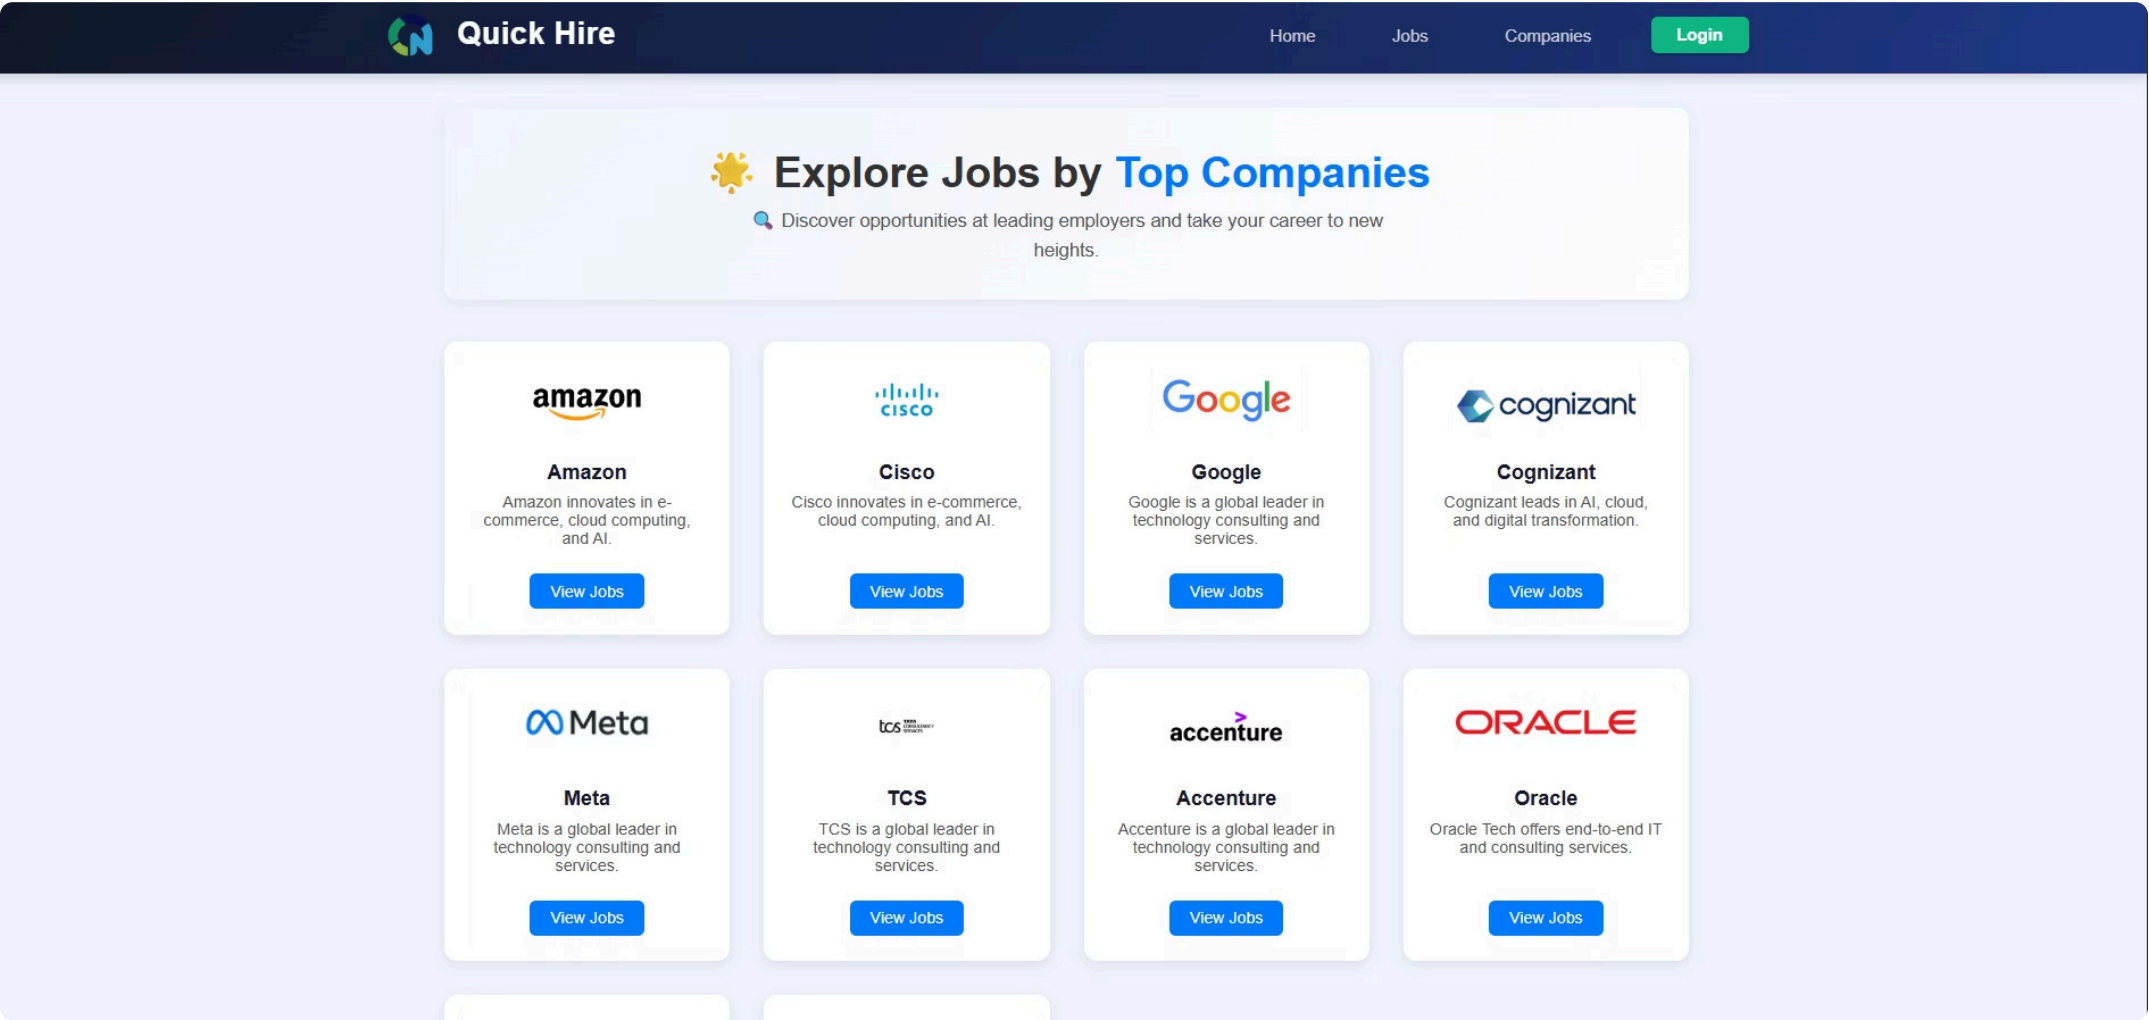

Signing Up as a Recruiter

Recruiters can also register. They gain tools to post jobs and manage applicants.

Top Companies Page

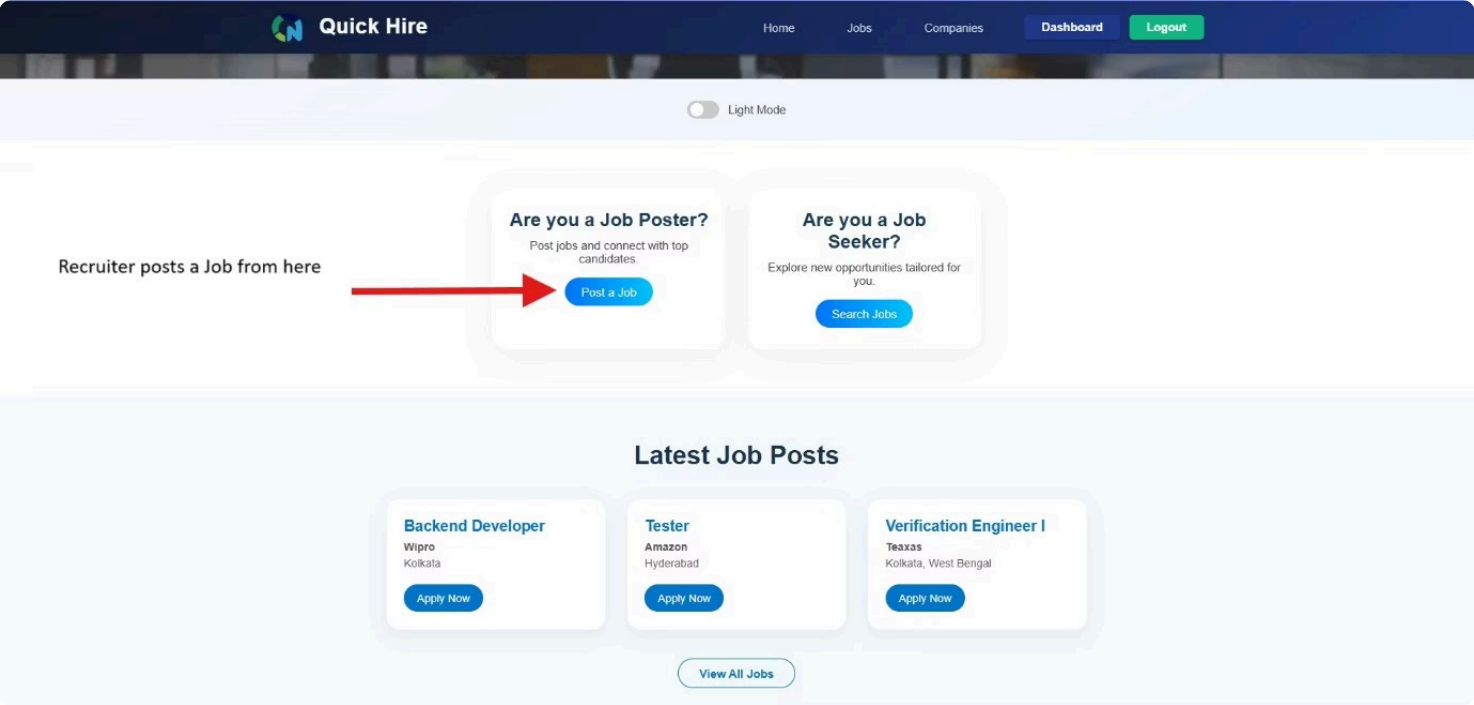

Explore top companies actively hiring on QuickHire. Discover new career opportunities.

Recruiter Job Posting Flow

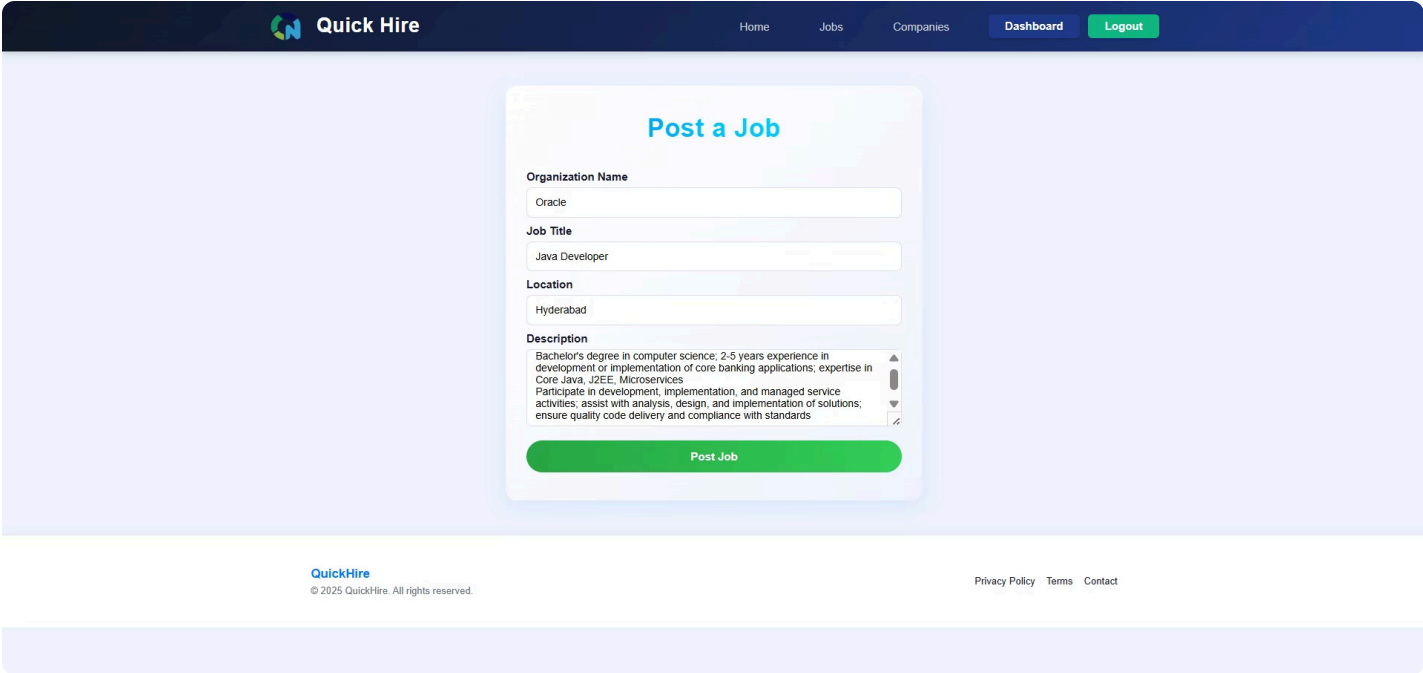

Post a Job from Homepage

Recruiters begin by clicking the 'Post a Job' button.

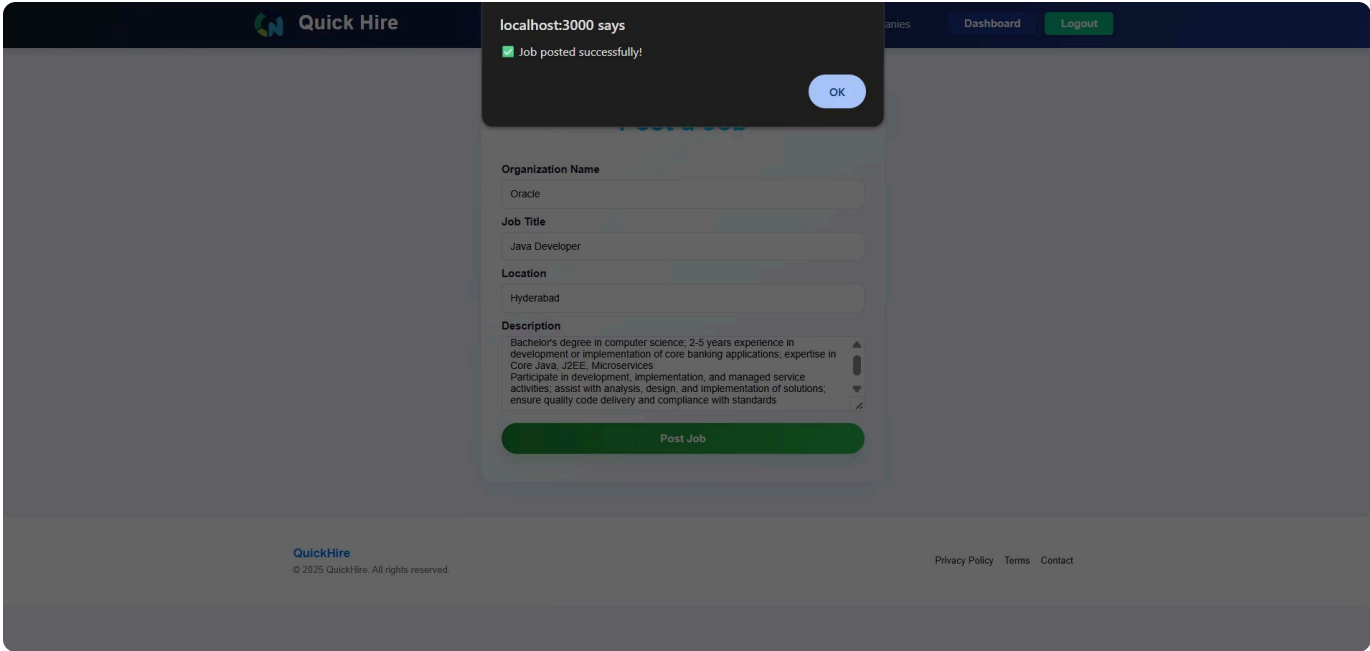

Complete Job Post Form

This redirects to the job post page. Recruiters fill in job details.

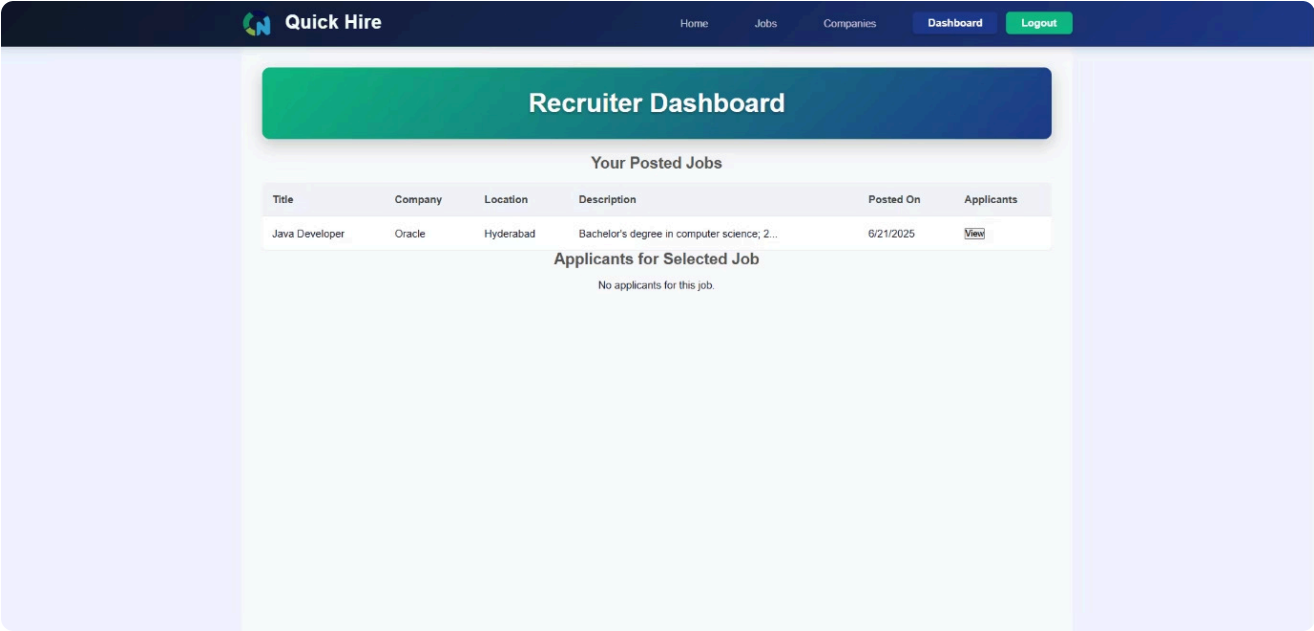

Job Posted Successfully

A confirmation message appears upon successful posting.

View Posted Jobs in Dashboard

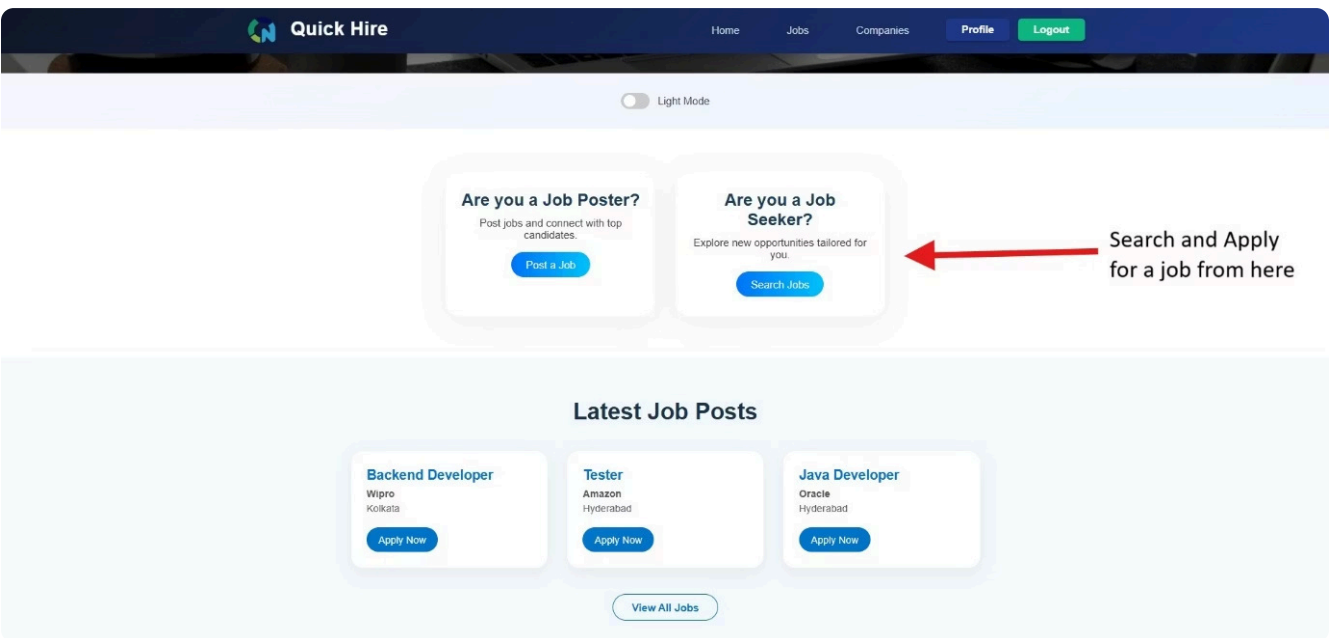

Recruiters can manage all their posted jobs from a dedicated dashboard.

Job Seeker Application Process

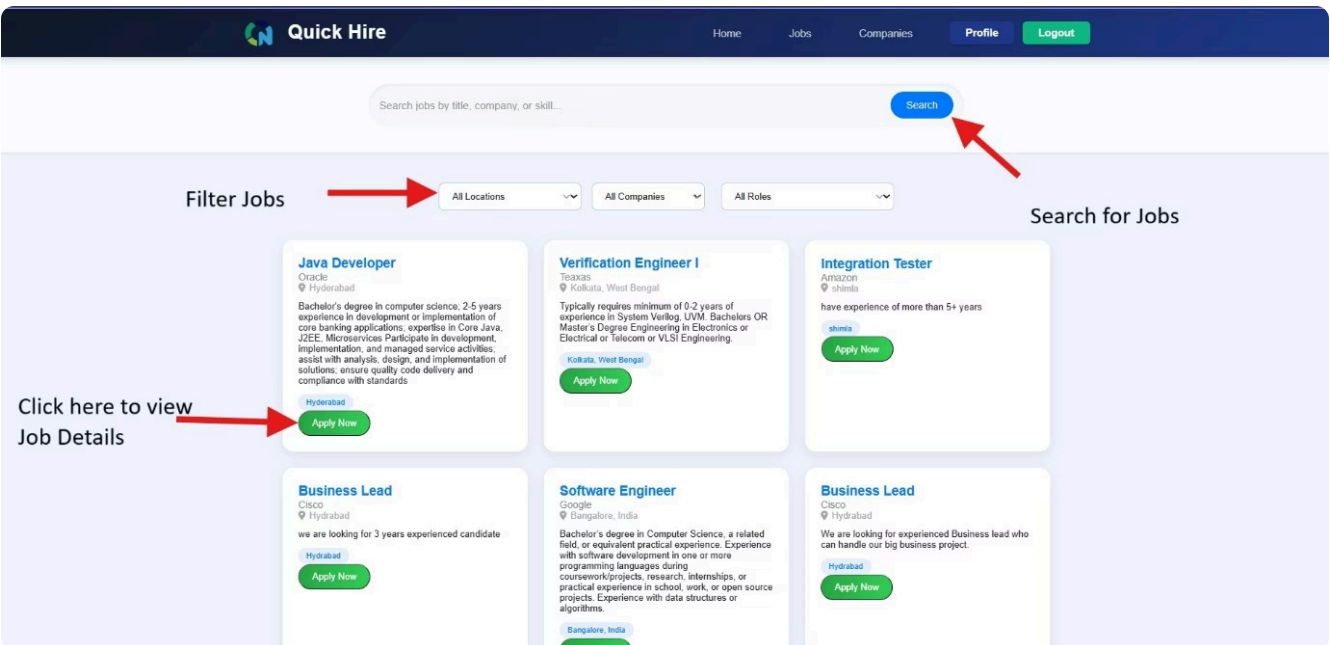

1 Initiate Application

Job applicants select a job they wish to apply for.

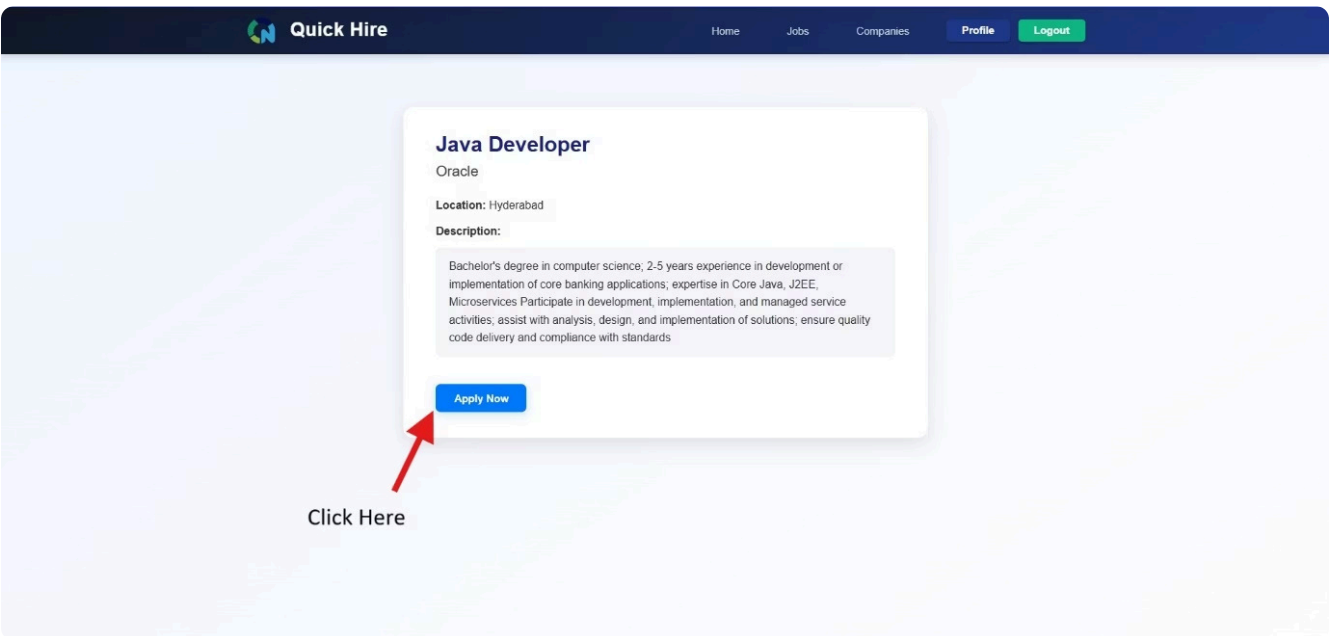

2 Search and Discover

Users are redirected to the jobs page to search.

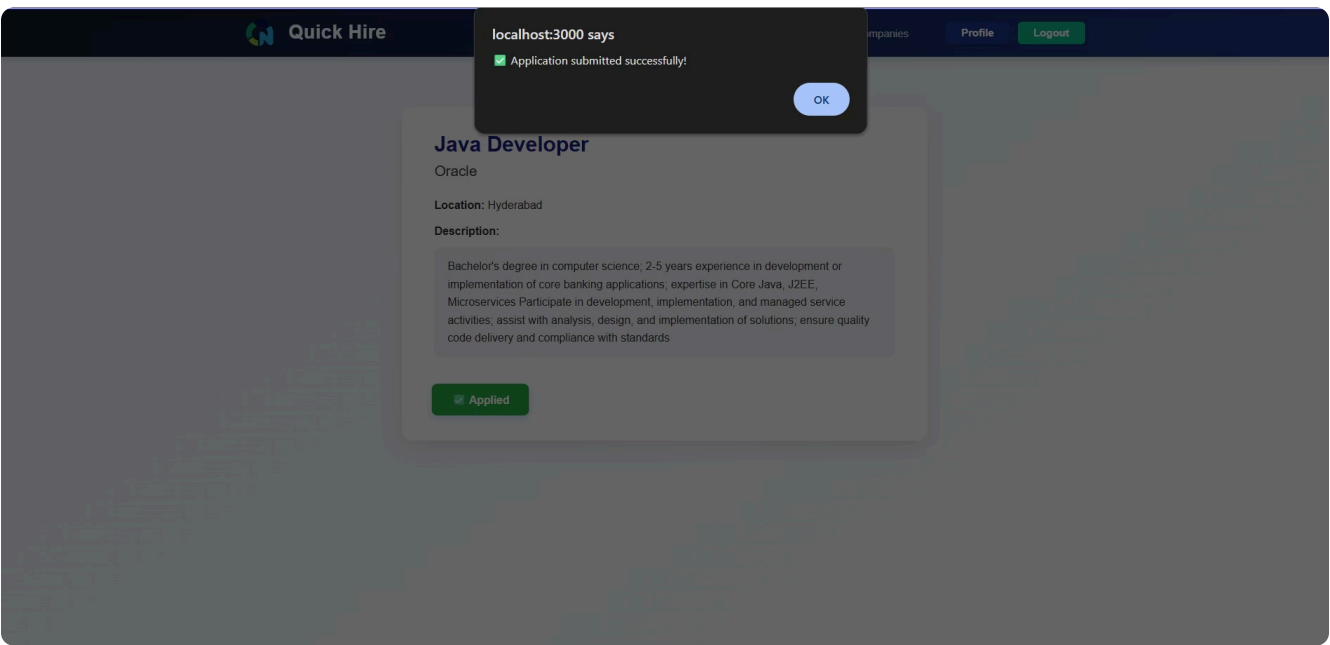

3 Confirm Application

Click 'Apply Now' to submit the application.

4 Application Confirmation

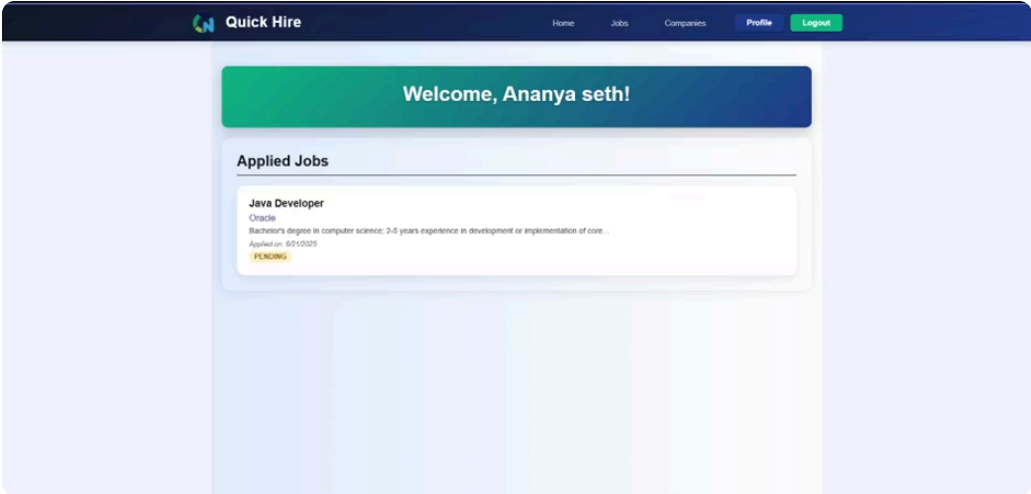

A success message confirms the application submission.

Application Status Tracking

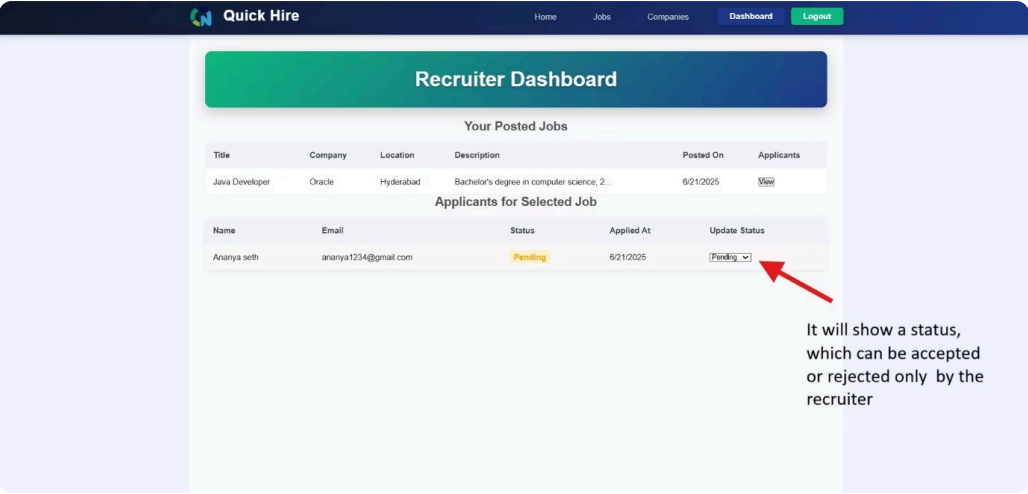

Candidate Profile Updates

Candidates view their applied jobs. They also track their status.

Recruiter Dashboard Management

Recruiters manage applicants. They update application statuses to accepted or rejected.

Real-time Status Sync

Once updated by the recruiter, the status is instantly reflected. The job applicant's profile will show the new status.
